The Tombstone papers attempted to pack a meeting to secure the adoption of resolutions censuring Gov. Tritle, for not demanding the immediate removal of Gen. Crook, and the press poured out epithets of abuse against him for not doing so. Now, why in the name of Heaven do they not call on Gov. Zulick to do what Gov. Tritle refused to do, if they are really in earnest, as they claim on the Indian question.—Journal-Miner.

They have, Brother Martin, and Gov. Zulick, like a gentleman, responded, and the telegram is gone.

## Feet In.

Last Saturday evening, just as the clocks were striking the midnight hour, those of our citizens who chanced to be out that late, were suddenly made aware of a low rumbling noise, followed immediately by the crash of falling timbers and crumbling adobe.

Our reporter, who was in the near vicinity of the sound, immediately proceeded to the corner of Fifth and Allen street, and found that part of the Oriental block had fallen in, and upon examination it was found that the partition wall between the saloon occupied by Bidwell & Simmons and that formerly occupied by Frank Broad had fallen down and caused the roof of both buildings to fall in. The wall in the saloon occupied by Martin Costello was badly sprung, necessitating bracing it up with heavy timbers. The ceiling and walls of the building occupied by Joseph Lippert, as a barber shop, are badly damaged. Fortunately, owing to the lateness of the hour, no one was hurt. Joseph Lippert, who was asleep in the rear of the shop, received a few cuts on his head from the falling plaster.

The air was full of dust and gas for an hour or more after the occurrence, and how a fire was averted is a mystery. Chief Engineer Keefe, with a force of men from the engine company, stretched ropes around the ruined buildings, shortly after they fell down, to prevent pedestrians from being hurt. The property damaged belonged to Ben Cook, and a party who resides in the east, and the total damage will probably reach \$3000.

## Das Cabezas.

Mr. W. S. Davis, the genial proprietor of the Eureka Hotel at Wilcox, has kindly sent us the following:

J. W. Fleming, the owner of the Galena Chief mine, which is now being worked by himself and Tom Lamon, passed through Wilcox on Friday, en route to Silver City, and reports the mine as looking well and states that he and his partner are well satisfied with the result of their last run. After an eight day's run they cleaned up \$1,300 in gold, which they run into a bar and which was placed upon exhibition at the Eureka Hotel where it was inspected by many of the citizens as it lay upon the shelf in its glittering beauty. Mr. Fleming thinks that after the mill and plates have been used awhile he will get better returns from his ore. Mr. Fleming is one of the enterprising men of this country, and too much cannot be said in his behalf. He is sociable and friendly with every one he meets and always has a good word for his neighbors. He stated that Das Cabezas was taking upon itself new life, and that the people there had awakened from their lethargy and were getting ready to work their properties, and add to the bullion product of the Territory.

## Recaptured.

Rafael Salcido, the Ures murderer, who escaped from the down train last week, was recaptured near San Miguel by Jose Escalante, Prefect of Hermosillo, and policeman Braulio Valencia, Tranquilona, Enmurejillo and one other, and taken to Hermosillo last Saturday morning. Salcido was mounted on a good horse and was accompanied by a man servant, showing that his friends or relatives had provided for his escape before he left the train. He will doubtless be shot before he gets another chance to escape.—Frontier.

## A New Racket.

This afternoon an individual stepped into the store of R. P. Mansfield, on Fifth street, and inquired whether they kept whisky for sale, and upon being answered in the affirmative, asked to be shown some samples of the whiskeys on hand, as he did not wish to purchase any but the best. Mr. Mansfield then went into the cellar and returned with five glasses containing samples of different brands of which the would-be purchaser drank down one after another as quickly as he could, and then turning to the astonished Mansfield, bid him good day and walked out of the store. Russ says he will fix up the next individual who wants to sample his whisky.

W. C. Byrne, the popular agent of B. Friedlander merchant tailors, of San Francisco, is at the Occidental Hotel, where his samples can be seen, and where he will be prepared to take your measure for clothing. This is Mr. Byrne's fifth or sixth trip to this place, and he has always given satisfaction. c29-3t

As many of our citizens are desirous of knowing when Judge Barnes will arrive in this city, the following telegram from the Judge to Judge Robinson is self explanatory:

TUCSON, Nov. 2. JAS. S. ROBINSON, Tombstone—I will be in Tombstone next week same date, just as soon as I return from Graham county. Will notify you later. WM. H. BARNES.

A span of horses attached to a Chinese vegetable wagon, becoming impatient to-day while standing in the cold rain, took it into their heads to go home and to go as quickly as possible. So not waiting for the driver they started off in the direction of the river on a gallop, and a minute after about 20 Chinamen with their pig tails flying in the air started off in pursuit of the fast fleeing team. The last that was seen of them was the team passing the Neptune Wells a good first, while the Chinamen were about a half a mile behind being devilish poor seconds.

Our stock of boots and shoes are the finest this side of San Francisco, at Summerfield Bros.

By the retirement of Judge Easton the custom service loses an upright and honorable officer, and the people of this district lose the most efficient officer they have ever had. Fine broadened silks, satins, and velvets, at the New York Store.

When the buildings fell in the other evening, a party of well known gentlemen were playing a little game of freeze out for the beer, and when the plaster began to fall upon them they all tore out of the building as if the old Nick was after them. All except one who held three hours and he staid with the pot. Two others jumped through the back door taking the door with them, while the fourth found himself in the middle of the street with five cards in one hand and a schooner of beer in the other. After they all got together again they adjourned to a downtown saloon and finished their game. They all showed rare nerve in facing danger and would be a good four to draw to in case of a riot or an Indian fight. We will not publish their names this time, although if they had been at home instead of playing cards at that hour of the night, they would not have been placed in so much danger. It is said that the whiskers of one of them turned white. We cannot vouch for the truth of this statement, but we do know that he has had his beard shaved off, and he won't give any good reason for shaving them off.

## Don't Want to Know Much.

The following letter has been received at this office and is only a sample of those we receive almost every day:

CADWELL, KANS., Oct. 25, 1885.

EDITOR DAILY TOMBSTONE—I would like to ask you a few questions in regard to Tombstone and the country around it, as I have a strong idea of going there, but would like to know a little more about the place?

Upon what does Tombstone depend for its support? Is it a mining or a cattle town? Have the mines of that part of Arizona been pretty well developed? Is there any placer mining or is it all in quartz rock? Are the mines worked by Chinamen? How large a place is Tombstone?

Is the population of that country made up principally of Mexicans? Would it be necessary to talk Mexican to do any good in any kind of business? Would a person likely find it difficult to get a position in a store? Could a person make anything teaching school in that country? About what is board worth and what are miners' wages? What time of the year would be the best time to come? That is when a person be the most likely to find work? Does that climate seem to agree with people from the northern states? I am from La Grange, Ind.

Hoping that you will please reply, I remain

Yours and obliged,  
HERMAN J. TARBAGER.

We give the following answers to the above questions, thereby answering several other letters at the same time.

1—Upon the mines and the cattle interests in its vicinity.

2—It is both a mining and a cattle country.

3—The mines are well developed.

4—There are no placers in this neighborhood. It is all quartz mining.

5—No Chinamen are employed in any of the mines.

6—No; the population of this country is not composed of Mexicans. It is settled with Americans.

7—You do not need to understand Spanish unless you so desire.

8—The chances are that you would find it difficult to get a position in a store, as the supply of clerks exceeds the demand.

9—Good teachers are well paid in this country.

10—Board is from \$7 to \$9 per week. Miners are paid \$3 per day.

11—Any time of the year is good to come here, but if you have not any means, this is a poor place to come to.

12—The climate is the finest in the world and agrees with anybody. It cures the sick and makes the old young again.
